Limited Space Available
WISA Members.... \$ 395 Non-Members.... \$ 545

An e-manual is included in this purchase-Prefer print? A copy can be purchased through NTS for an additional cost

This 14-hour course, followed by an exam, is an advanced look at design and installation of intrusion systems. Students learn how to select and install proper equipment in a variety of intrusion system applications. The course provides basic electronics instruction and how it pertains to system design, component selection and troubleshooting, as well as information on system testing, commissioning, and project management. It concludes with a two-hour examination.

SUBJECT AREAS:

- Practical application of electronics
- System inputs and outputs
- Communications
- System networking
- Practical application of controls
- Advanced systems and devices
- Testing and commissioning
- System power
- Practical sensor application
- Project management

Use one registration form for each person. Copy this form as needed.

In compliance with the Americans with Disabilities Act, WISA will accommodate special needs students through the following procedure. If a student has a special need, it must be documented in writing from the student's doctor or other qualified professional. This written documentation must accompany the class registration form. WISA class cancellation policy: A refund minus a twenty-dollar (\$20.00) processing charge will be given when a cancellation notice is given 72 hours or more prior to the start of the class either through phone, or e-mail. Additional fee will be charged if book has been sent to student. Invoiced but not paid. 'No Shows', will also be billed. If WISA is not notified of a cancellation there is no refund. A full refund will be given if the WISA cancels the class.
